be made alive."

The remainder of the forenoon was occupied by a  
meeting in the tent, which was addressed by Mrs.

Livermore, upon the subject of Women's efforts in aid of the Centenary. She stated that at Buffalo last year, the women proposed to raise as their part of the Murray fund \$25,000. She was now happy to inform them that it had already reached \$33,000 and they expected to swell that sum to \$40,000 before the first of January 1871. Her whole address, which was very eloquent and persuasive, was listened to with profound attention. The meeting was continued by addresses from various speakers upon different subjects connected with the Centenary fund. In the afternoon Rev. Dr. Chapin of New

Work preached a tender, eloquent, earnest, thoroughgoing conversion sermon at the tent, from the text, "I have been a benefactor to the poor," which was well received. After business and conference meetings, closed the services connected with this unusually large and joyous gathering of Universalists. On leaving this series of so much religious enthusiasm, one lady was heard to remark, "What a victory had been gained over the world of sin and error during the past week! We have been able to convince the whole that the next Century will find the whole world saved, redeemed." Kind hearted old lady. So may it prove. PHOENIX.
